

## New Education Policy 2020 :Transforming Education in 2023

The National Education Policy-2020(NEP) with some additions in 2023 is a detailed framework for transforming education in India, focusing on critical thinking, holistic development, and global perspectives, the preparation of the policy for education in schools and colleges falls under the purview of the National Education Policy, which the Government of India updated in 2023. The new policy includes significant changes aimed at positioning India as a global knowledge superpower.

As part of the policy, the Ministry of Human Resource Management has been renamed the Ministry of Education. Education from preschool to secondary school will be universalised to achieve a 100% Gross Enrollment Ratio (GER) in school education by 2030, except for medical and law studies.

A new 5+3+3+4 pattern will replace the previous 10+2 education pattern.

## Replacement of the 10+2 structure with the 5+3+3+4 structure-

## SARTHAQ

Students' and Teachers' Holistic Advancement Through Quality Education

The government is continuously striving to enhance the standard of education by implementing various changes. Recently, the National Education Policy was launched by the government. Education Minister Ramesh Pokhriyal Nishank is now set to kickstart the meaningful Sarthaq Yojana for the all-encompassing development of students and teachers through quality education. The views, discussions and suggestions of stakeholders such as States and Union Territories were considered while preparing the scheme. The Ministry of Education received a total of 7177 suggestions. The New Education Policy 2023 has 297 education policy recommendations which have been consolidated and assigned to respective agencies with fixed deadlines. The scheme also comprises 304 dimensions to accomplish these tasks.

By 2025, it will help all students of Grade 3 to get access to high-quality Early Childhood Care and Education (ECCE) and Universal Acquisition of Foundational Literacy and Numeracy. The project will focus on raising children's enrolment ratios, such as the Gross Enrolment Ratio (GER) and Net Enrolment Ratio (NER), improving transition rates and retention rates at all levels, and reducing dropouts and out-of-school children

## Review:Teacher's Education and NEP

### New Education policy on Teachers' Education:

1. All teachers should have a minimum of a Bachelor's Degree in Education, or a related field with an emphasis in Education.
2. All teachers should participate in ongoing professional development in order to keep up with the latest trends and best practices in education.
3. All teachers should be certified in their respective subject area and have an advanced degree in their field.
4. All teachers should be required to take courses in special education and be knowledgeable of the different types of disabilities and strategies for teaching students with special needs.
5. All teachers should be knowledgeable of the various types of assessment and assessment tools used to measure and assess student progress.
